- An organization that focuses on development, success, values, focus, drive and determination, all in a positive environment;
- Playing at the highest level that minor hockey has to offer;

AAA Petes Development Program

Led by 2 time Stanley Cup Champion **Corey Stillman** our very successful and innovative development group sessions include instruction by, long term pro player and coach **Jamey Hicks**, former OHL player-NHL Draft Pick-Professional Player **Chad Cavanaugh**, retired pro goalie and current Peterborough Pete's Assistant & Goalie Coach **Andrew Verner**, former Peterborough Pete **Mike Martone**, and this years' Technical Coach of the Year, **Matt Bowen**.

Between August and December, the Development Program works with each team on the fundamentals of the game, including dynamic skating that focuses on proper stride, edgework, and quicker feet. They focus on shooting properly with head up and proper technique with added innovative drills to incorporate stickhandling and passing in tight areas. We offer to all teams in our organization approximately 14-15 sessions (subject to team schedules) with Development Group. The cost for this program is included with your registration.

Obtaining a AAA Waiver:

In the event that a player is released by a coach during tryouts, and that player wishes to obtain a AAA Waiver to attend tryouts in another AAA zone, that request is to be made of a representative of the PMHC on site, rather than the head coach.
